

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (currently amended) A method for deodorizing an odoriferous aqueous system ~~comprising~~ consisting essentially of adding to said aqueous system an amount sufficient to deodorize said aqueous system of a halogenated isothiazoline organic halogen donor, wherein said halogenated isothiazoline is selected from the group consisting of 5-chloro-2-methyl-4-isothiazolin-3-one, 5-bromo-2-methyl-4-isothiazolin-3-one and mixtures thereof.
- 2-5. (canceled)
6. (original) The method of claim 1, wherein said organic halogen donor is added to said aqueous system in an amount of from about 1 to about 1,000 parts per million.
7. (original) The method of claim 1, wherein said organic halogen donor is added to said aqueous system in an amount of from about 1 to about 500 parts per million.
8. (currently amended) A method of deodorizing the odoriferous atmosphere of an aqueous system ~~comprising~~ consisting essentially of spraying into said atmosphere an aqueous solution of a halogenated succinimide or halogenated hydantoin organic halogen donor.
9. (canceled)
10. (previously presented) The method of claim 8, wherein said halogenated succinimide is selected from the group consisting of N-chlorosuccinimide, N-bromosuccinimide and mixtures thereof.
11. (currently amended) The method of claim 8, wherein said halogenated hydantoin is selected from the ~~groups~~ group consisting of 1-bromo-3-chloro-5, 5-dimethylhydantion, 1, 3-dichloro-5, 5-dimethylhydantion, 1, 3-dibromo-5, 5-dimethylhydantion and mixtures thereof.
12. (canceled)
13. (currently amended) A method of deodorizing an aqueous solution ~~comprising~~ consisting essentially of adding to said aqueous solution a halogenated isothiazoline organic halogen donor in an amount sufficient to deodorize said aqueous solution, wherein said halogenated isothiazoline is selected from the group consisting of 5-chloro-2-methyl-4-isothiazolin-3-one, 5-bromo-2-methyl-4-isothiazolin-3-one and mixtures thereof.
- 14-17. (canceled)

18. (original) The method of claim 13, wherein said organic halogen donor is added to said aqueous solution in an amount of from about 1 to about 1,000 parts per million.
19. (original) The method of claim 13, wherein said organic halogen donor is added to said aqueous solution in an amount of from about 1 to about 500 parts per million.
